

NORTHFIELD

CAPITAL CORPORATION

The Premier Public Gateway to Ontario's Ring of Fire

TSX-V: NFD.A

Toronto, Canada | November 2025

Legal Disclaimer

This presentation of Northfield Capital Corporation (“Northfield” or the “Company”) is for information only and shall not constitute an offer to buy, sell, issue or subscriber for, or the solicitation of an offer to buy, sell, issue or subscribe for any securities of the Company or of any affiliated or associated companies, or in any jurisdiction in which such offer, solicitation or sale would be unlawful. The information contained herein is subject to change without notice and is based on publicly available information, internally developed data and other sources. Where any opinion or belief is expressed in this presentation, it is based on the assumptions and limitations mentioned herein and is an expression of present opinion or belief only. No warranties or representations can be made as to the origin, validity, accuracy, completeness, currency or reliability of the information. The Company disclaims and excludes all liability (to the extent permitted by law) for losses, claims, damages, demands, costs and expenses of whatever nature arising in any way out of or in connection with the information in this presentation, its accuracy, completeness or by reason of reliance by any person on any of it. This presentation should not be construed as legal, financial or tax advice to any individual, as each individual’s circumstances are different. Readers should consult with their own professional advisors regarding their particular circumstances. There are certain risks inherent in an investment in the securities of the Company that prospective investors should carefully consider before investing in the securities of the Company.

Forward Looking Information

This presentation of Northfield contains “forward-looking information” within the meaning of applicable Canadian securities legislation and “forward-looking statements” within the meaning of applicable United States securities legislation, together, “forward-looking statements”. Such forward-looking statements contain known and unknown risks, uncertainties, and other factors that may cause our actual results, performance, or achievements, or developments within our industry, to differ materially from the anticipated results, performance, or achievements expressed or implied by such forward-looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words “expects”, “aims”, “plans”, “anticipates”, “believes”, “intends”, “estimates”, “projects”, “potential”, and similar expressions, or that conditions “will”, “would”, “may”, “could”, or “should” occur. Forward-looking statements included in this presentation include, but are not limited to: (i) projected performance of the Company, including statements with respect to the Company’s share price, the share price and value of its investment portfolio and other financial metrics related thereto; (ii) statements with respect to each Northfield share representing a Juno share; (iii) the expected financial results of its investment portfolio companies; and (ivii) execution of the Company’s vision and growth strategy, including with respect to any future activity. There can be no assurance that such statements will prove to be accurate. Actual results and future events may differ materially from those anticipated in such statements and readers are cautioned not to place undue reliance on these forward-looking statements that speak only as of their respective dates. Important factors that could cause actual results to differ materially from the Company’s expectations could include among others: risks related to fluctuations in market price (including each Northfield share representing a Juno share and their respective price and rights attached thereto (readers should note that any such statement does not account for the relative values of such shares and the fact that Juno is not a wholly-owned subsidiary of Northfield), prices of raw material used by the Company’s investment companies and mineral prices; the possibility that results will not fulfill expectations and realize the perceived potential of the investments in question; political uncertainty; uncertainties in the estimation of any potential future exploration success at the Company’s mineral related investments; the possibility that required permits may not be obtained in a timely manner or at all; the possibility that capital and other costs may be higher than estimated and may preclude or render future exploration and development uneconomic; risk of accidents, equipment breakdowns or labour disputes or other unanticipated difficulties or interruptions; the possibility of cost overruns or other unanticipated expenses; the risk of environmental contamination or damage resulting from the Company’s operations; risks associated with title to properties; risk associated with the health pandemics; and other risks and uncertainties discussed elsewhere in the Company’s documents made publicly available from time to time and available on SEDAR+. These statements are based on a number of assumptions; including assumptions regarding general market conditions, the availability of financing for proposed transactions and programs on reasonable terms, and the ability of outside service providers to deliver services in a satisfactory and timely manner. Forward-looking statements are based on the beliefs, estimates, and opinions of the Company’s management on the date the statements are made. Except as expressly required by applicable securities laws the Company undertakes no obligation to update these forward-looking statements in the event that managements beliefs, estimates, opinions or other factors, should change.

Non-IFRS Measures

Northfield uses certain non-International Financial Reporting Standards (IFRS) performance measures in this presentation. These performance measures have no meaning under IFRS and, therefore, amounts presented may not be comparable to similar data presented by other mining companies. The data is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS.

Public Data

This presentation also contains or references certain industry data which is based upon information from independent industry publications, market research, analyst reports and surveys and other publicly available sources. Although the Company believes these sources to be generally reliable, such information is subject to interpretation and cannot be verified with complete certainty due to limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other inherent limitations and uncertainties. The Company has not independently verified any of the data from third party sources referred to in this presentation and accordingly, the accuracy and completeness of such data is not guaranteed.

Scientific and Technical Information

The scientific and technical content of this presentation has been reviewed and approved by Scott Zelligan, P. Geo. (PGO #2078), a “qualified person” as defined by National Instrument 43-101 – *Standards of Disclosure for Mineral Projects*. Mr. Zelligan has verified the data disclosed in this presentation and no limitations were imposed on his verification process.

Confidentiality

This presentation is confidential and is being provided to you solely for your information and may not be reproduced, in whole or in part, in any form or forwarded or further distributed to any other person. Any forwarding, distribution or reproduction of this presentation, in whole or in part, is unauthorized. By accepting and reviewing this presentation, you acknowledge and agree (i) to maintain the confidentiality of this presentation and the information contained herein, (ii) to protect such information in the same manner you protect your own confidential information, which shall be at least a reasonable standard of care, and (iii) to not utilize any of the information contained herein except to assist with your evaluation of the Company. This version of the presentation supersedes and replaces any and all versions of this presentation previously provided to you.

▶ Northfield at a Glance

Northfield Capital offers investors direct **exposure to Ontario's Ring of Fire** through its strategic stake in Juno Corp—the district's dominant claimholder.

\$101M Total Assets¹

18M Shares Outstanding
NFD holds ~1 Juno share for every NFD share outstanding

24% Juno Ownership
\$31.5M = ~31% of assets

~60% Insider Owned

% of Assets

Capital will be deployed to strategically increase Northfield's ownership position in Juno, further strengthening our exposure to the generational opportunity that is the Ring of Fire.

THE PREMIER PUBLIC VEHICLE PROVIDING RING OF FIRE EXPOSURE

1 – Per June 30, 2025 condensed interim consolidated financial statements

Executive Leadership

Robert D. Cudney — Chief Executive Officer, President & Founder

Over 40 years of mining and capital-markets leadership. Co-founded and financed multiple billion-dollar resource successes — including Gold Eagle Mines (C\$1.5 B exit – 2008), FNX Mining / Quadra (C\$3.5 B exit – 2012), Queenston Mining (C\$550 M exit – 2012), and Guyana Goldfields (C\$323 M exit – 2020). A systematic builder whose incubator model has generated C\$5 B+ in realized value. Recipient of the Bill Dennis Award for the discovery of the Bruce Channel Deposit.

Michael G. Leskovec, CPA, CA — Chief Financial Officer

Chartered Accountant with 20+ years of capital markets and corporate finance experience across investment, mining, and diversified operating businesses. Known for strategic execution, disciplined financial leadership, and value creation through Northfield’s incubator model.

Fraser Laschinger — VP Investments

Over 15 years experience in capital markets and the mining sector. Skilled in investment analysis and sector assessments, and strategic leadership; serving as an executive for a number of portfolio companies. Previously worked in equity research for a Canadian investment dealer.

Marina Katsimitsoulas, CPA, CA — Director Finance

Chartered Accountant with 13+ years of financial management and reporting experience across healthcare, manufacturing, and diversified investments. Skilled in M&A integration, audit, and strategic planning, with a strong background in capital allocation and financial governance.

Board of Directors

Ernie Eves, Q.C, LL.D. — Former Premier of Ontario (2002 - 2003) and former Finance Minister (1995-2001), deep government and regulatory expertise

John McBride, ICD.D — Institute of Corporate Directors Designation, 40+ years experience capital markets & investment management

Eric Klein, ICD.D, CBV, CPA CA — 35+ years experience with TSX-listed companies in both investment, exploration and mining industries

Morris Prychidny, CPA, CA — 35+ years experience in mining, entertainment and real estate industries as well as capital markets

Maryke Ballard — Vice President of Orion Capital Incorporated, a private investment company in Toronto, Canada, ESG and stakeholder engagement specialist

Decades of Repeatable Billion-Dollar Success

Northfield's management team has a 25-year track record of building mining companies at scale. This is not the first discovery—it's the best one yet.

Company	Role	Acquisition Value	Acquirer
Gold Eagle Mines	Co-Founder	C\$1.5 billion	Goldcorp (2008)
FNX Mining	Co-Founder	C\$3.5 billion	KGHM (2012)
Queenston Mining	Early Investor	C\$550 million	Osisko (2012)
Guyana Goldfields	Co-Founder	C\$323 million	Zijin Mining (2020)
Voyageur Mineral Explorers	Acquired 2019	C\$23M (RTO 2025)	Evolve Strategic Royalty (Nov 2025) ~100% return anticipated

"Northfield's team has delivered over \$5 billion in realized shareholder value. Juno represents the most significant discovery to date—and it's just getting started."
— Robert Cudney, Founder & CEO, Northfield Capital

▶ Northfield Accelerator Model — A Proven System for Building Value

Repeatable approach to unlocking value in undervalued natural resource companies. Accelerator model combines strategic control, operational expertise, and patient capital to transform overlooked opportunities into premium exits.

1 Identify

Source undervalued or overlooked opportunities before the market sees them. Leverage deep sector expertise and extensive networks to identify assets with hidden potential and structural advantages.

2 Acquire Control

Take strategic ownership and board representation to drive strategy. Strategic positions enable us to influence management decisions, guide corporate direction, and implement value-creation initiatives.

3 Build Value

Apply Northfield's capital, technical expertise, and operational discipline to de-risk and scale. We work alongside management to optimize operations, advance exploration programs, and strengthen balance sheets.

4 Monetize Strategically

Exit through M&A or RTO at premium valuations. Strategic timing and positioning allow us to maximize returns by selling to well-capitalized acquirers or facilitating transformative corporate transactions.

5 Reinvest

Recycle capital into the next generation of high-potential assets. Disciplined redeployment compounds returns over time, creating a sustainable engine for long-term NAV growth.

Identify → Build → Monetize → Reinvest = Compounding Growth

▶ Juno Corp: The Flagship Asset

Largest Claimholder in Ontario's Ring of Fire

5,300 km² (~1.3 million acres) District-Scale Position

Commanding 52% of the entire Ring of Fire – North America's most significant gold and critical minerals discovery in decades.

Gold & Strategic Critical Metals Portfolio

Gold, copper, titanium, vanadium, iron, scandium, and gallium – the metals powering supply chains, clean energy infrastructure, and technologies essential to aerospace and national defense. Juno's mix of precious and critical metals positions Northfield at the intersection of security, sustainability, and long-term value creation.

\$32M Cash Position to Start 2025

Fully funded for 2025 planned exploration programs.

“We believe this is a generational discovery with Bushveld-scale potential—right here in Canada.”

— Robert Cudney, Founder & CEO, Northfield Capital

Bushveld Complex

Potential to be a Strategic National Asset

Metric	Bushveld Complex (South Africa) ²	Ring of Fire (Ontario, Canada)
Land Package Size	~5,000 km ²	5,300 km ² (Juno-controlled)
Key Metals	V, Ti, Fe, PGMs, Ni, Cr, Cu, Au	V, Ti, Fe, Ni, Cr, Sc, Au, Cu, Ga, Pt, Pd, Zn, Pb, Ag
Production Lifespan	100+ years (active since 1920s)	Just beginning — multi-decade horizon
Economic Value	US\$100B+ contributed to economy	Multi-billion dollar potential
Strategic Importance	Backbone of South African economy	Potential mineral powerhouse of Canada

2 – Minerals Council South Africa – National Platinum Strategy available at <https://www.mineralscouncil.org.za/>
Note: Bushveld comparison is for illustrative purposes only and not necessarily indicative of the mineralization at Juno’s mineral properties.

► Gold District + Vespa Discovery, A Critical Mineral Powerhouse

Multi-billion-tonne critical mineral potential combined with district-scale gold system—two massive value drivers converging in one asset!

District Scale Gold Structure

- High-grade discovery hole: **3.9m @ 79gpt Au Incl. 0.6m @ 370gpt Au³**
- District-scale multi-deposit gold potential across a **250-km structural trend**
- Fast tracked development opportunity
- **GOLD DOESN'T NEED A ROAD!**

Vespa Polymetallic Zone

- **10% TiO₂, 40% Fe₃O₄, 1% V₂O₅**
- Exploration target: **>1 billion tonnes**
- Among North America's largest emerging critical-metal systems

Pluto (Gold District)

Vespa (Critical Mineral District)

From Discovery to Building Scale, Through Exploration and Execution

Grow Ownership

Deploy resources to increase Northfield's Juno stake above 24% – currently ***Northfield holds ~1 Juno share for each Northfield share outstanding***

Maximize Shareholder Value Through Aggressive Exploration

Advance mineral projects (gold district, Vespa) through aggressive exploration programs, continue to make new discoveries and further open up new prospective areas.

The strategy is clear – leverage new capital to strengthen control, accelerate discovery, and position for maximizing shareholder value.

▶ Aviation Advantage Through Wholly-Owned True North Airways

Accelerating Exploration Through Vertical Integration of Wholly-Owned Aviation Subsidiary “True North Airways”

Fleet & Capabilities

- **12 aircraft:** jets, turboprops, helicopters
- Dedicated charter and cargo support for Juno's remote exploration logistics as well as full fledged executive charter business
- Dramatically shortens timelines and reduces third-party costs in challenging terrain
- **EBITDA-positive** operation funding internal growth

“Owning the aircraft has rapidly accelerated Juno's exploration programs. What used to take months now takes weeks.”

— Robert Cudney, Founder & CEO, Northfield Capital

Vertical integration of aviation assets is a strategic differentiator—enabling faster discovery cycles and operational control in one of Canada's most remote regions.

▶ Other Operating Brands

The Grange Winery

A premium estate, award-winning winery located in Prince Edward County, Ontario — one of Canada's fastest-growing wine regions. The winery is delivering 60%+ revenue growth (through Q2 2025) through strategic initiatives including premiumization (shifting production toward higher-margin wines), LCBO distribution expansion, and high-profile hospitality partnerships with Roy Thomson Hall and Massey Hall. The Grange is targeting breakeven cash flows by 2026–2027 and C\$1.5 million+ in annual net income by 2030.

Spirit of York Distillery

A premium, award-winning, Toronto-based craft distillery producing spirits including vodka, gin, whiskey, and liqueurs. The distillery has built strong brand recognition in Ontario's competitive craft spirits market and is expanding distribution through LCBO listings and a strategic Live Nation partnership that places products in high-traffic entertainment venues across the province. Targeting breakeven cash flows by 2027 as distribution expansion and brand awareness drive revenue growth.

Northfield Capital – The Premier Public Gateway to the Ring of Fire

1

Dominant Land Position

Juno controls 52% of Ontario's Ring of Fire – no other public vehicle offers this degree of exposure.

2

Tight Share Structure

18M shares outstanding with 60% insider ownership provides high leverage to Ring of Fire through Juno Corp.

3

Bushveld-Scale Discovery

Gold district + multi-billion-tonne potential critical minerals district comparable to South Africa's century-defining asset.

4

Proven Management

\$5B+ in realized exits across FNX, Gold Eagle, Queenston, Guyana Goldfields and most recent Voyageur Mineral Explorers.

5

Clear Capital Deployment

Proceeds directed to increase Juno ownership, fund exploration, and support value-accretive assets.

Once capital is raised, Northfield will systematically increase its Juno stake, fund aggressive exploration programs, and position remaining portfolio assets for strategic value realization.

52%

Ring of Fire Control

Through Juno Corp. – largest mineral claimholder in the Ring of Fire

5,300

km² Mineral Claim Package (1.3 million acres)

District-scale gold and critical minerals

\$5B+

Track Record

Management's realized shareholder value across prior company involvements

Why Invest Now

- Early-stage exposure to **North America's most significant gold and critical minerals discovery in decades**
- **Public vehicle providing Ring of Fire exposure**
- Management with proven ability to build and execute billion-dollar mining companies
- Direct ownership leverage to Juno:

Northfield holds ~1 share of Juno for each Northfield share outstanding

We believe it is uniquely endowed with many of the world's critical minerals

Ni	Cu	Pt	Pd	Au	Ag	Zn	Pb
V	Ti	Fe	Sc	Ga			

NORTHFIELD

CAPITAL CORPORATION

The Premier Public Gateway to Ontario's Ring of Fire

We believe we are positioned for ***generational value creation*** through Canada's most significant precious metals and critical minerals discoveries in Ontario's Ring of Fire.

QA/QC Drill core was logged and sampled at Juno's Oval Lake Camp in the Ring of Fire. Blanks and Certified Reference Materials were inserted into the sample stream at appropriate intervals according to CIM Best Practices. Sampled core was split and sent to one of three ALS Canada Ltd. Preparatory Labs: ALS Sudbury, ALS Timmins, and ALS Thunder Bay. Core samples were crushed, pulverized, and split before being sent for assay determination. Samples were sent to ALS Vancouver for Au grade determination via (Code PGM-ICP23) fire assay (30g sample analyzed by ICP-AES). Samples above 10 g/t Au were further analyzed via (Code Au-GRA21) a gravity finish at ALS Vancouver. Select samples were sent to ALS Thunder Bay for analysis via (Code Au-PA01) Photon Assay on 500g samples as check assays. Select samples in intervals with noted Visible Gold were sent for Metallic Screens (Code Au-SCR21) consisting of a 100 micron screen on 1kg pulp with AAS finish, completed at ALS Vancouver.
