NOTICE TO SHAREHOLDERS

November 28, 2025

MANAGEMENT'S RESPONSIBILITY FOR THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The accompanying unaudited condensed interim consolidated financial statements of Northfield Capital Corporation, ("**Northfield**") have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies disclosed in the notes to the unaudited condensed interim consolidated financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the statement of financial position date. In the opinion of management, the unaudited condensed interim consolidated financial statements have been prepared within acceptable limits of materiality and are in accordance with International Accounting Standard 34, Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards appropriate in the circumstances.

Management has established systems of internal control over the financial reporting process, which are designed to provide reasonable assurance that relevant and reliable financial information is produced.

Management has established processes, which are in place to provide it sufficient knowledge to support management representations that it has exercised reasonable diligence that (a) the unaudited condensed interim consolidated financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of, and for the periods presented by, the unaudited condensed interim consolidated financial statements and (b) the unaudited condensed interim consolidated financial statements fairly present in all material respects the financial condition, results of operations and cash flows of Northfield, as of the date of and for the period presented by the unaudited condensed interim consolidated financial statements. The Board of Directors is responsible for reviewing and approving the unaudited condensed interim consolidated financial statements together with other financial information of Northfield and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the unaudited condensed interim consolidated financial statements together with other financial information of Northfield. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the unaudited condensed interim consolidated financial statements together with other financial information of Northfield for issuance to the shareholders. Management recognizes its responsibility for conducting Northfield's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
Expressed in Canadian Dollars
Unaudited

For the three and nine months ended September 30, 2025 and 2024

1. NATURE OF OPERATIONS

Northfield Capital Corporation ("**Northfield**") is a publicly traded company incorporated under the laws of the Province of Ontario, with investment interests in resource, aviation, manufacturing and technology sectors. Northfield's Class A Restricted Voting Shares are listed on the TSX Venture Exchange under the symbol "NFD.A".

The address of Northfield's registered head office is 141 Adelaide Street West, Suite 301, Toronto, Ontario, M5H 3L5.

2. MATERIAL ACCOUNTING POLICY INFORMATION

(a) Statement of compliance

Northfield's unaudited condensed interim consolidated financial statements have been prepared in accordance with IFRS® Accounting Standards ("**IFRS**") as issued by the International Accounting Standards Board ("**IASB**"), and interpretations of the International Financial Reporting Interpretations Committee ("**IFRIC**"). These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting ("**IAS 34**") as issued by the IASB. Accordingly, they do not include all of the information required for full annual consolidated financial statements as required by IFRS. These unaudited condensed interim consolidated financial statements should be read in conjunction with Northfield's audited annual consolidated financial statements for the year ended December 31, 2024.

The condensed interim consolidated financial statements for the nine months ended September 30, 2025 were approved for issue by the Board of Directors on November 28, 2025.

These condensed interim consolidated financial statements have been prepared on the basis of IFRS® standards that were in effect at September 30, 2025 and these accounting policies have been applied consistently to all periods presented herein. These financial statements have been prepared on a going concern basis, which assumes Northfield will continue operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business.

(b) Principles of consolidation

Subsidiaries are entities over which Northfield has control, where control is defined as the power to govern financial and operating policies. The effect of potential voting rights that are currently exercisable are considered when assessing whether control exists. Subsidiaries are fully consolidated from the date control is transferred to Northfield, and are de-consolidated from the date control ceases.

On January 2, 2025, Northfield obtained control of Voyageur Mineral Explorers Corp. ("**Voyageur**"), a publicly listed Canadian junior resource company with exploration and evaluation assets in Canada, trading under the symbol "VOY" on the Canadian Securities Exchange. Voyageur was incorporated on January 8, 2004 under the Business Corporations Act (Ontario). As a result of this transaction, Northfield's ownership increased from 35.1% to 50.2% in 2025. As of September 30, 2025, Northfield's had 49.7% ownership.

At September 30, 2025, Northfield had 57.6% ownership of Distillery Network Inc. ("**DNI**") (December 31, 2023 - 57.6%), a private company incorporated under the laws of the Province of Ontario, which is currently in the growth and development stage of spirit distilling in Toronto, Ontario. Northfield acquired control of DNI on December 31, 2019. DNI owns 100% of Spirit of York Distillery Inc.

On May 8, 2020, Northfield obtained control of The Grange of Prince Edward Inc. (the "**Grange**"), a private company incorporated under the laws of the Province of Ontario operating a vineyard and winery in Prince Edward County, Ontario. As a result of this transaction, Northfield's ownership increased from 49.0% to 56.7% in 2020.

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(b) Principles of consolidation (continued)

On June 18, 2020, Northfield acquired all of the shares of True North Airways Inc. ("**TNA**"), Omar Aviation Limited and 369445 Ontario Limited (collectively, the "**TNA Group**"), which operates fly-in fishing camps in Northern Ontario and provides chartered air, flight training and aircraft maintenance services. The shares were acquired through incorporated subsidiaries Spruce Goose Aviation Inc. (wholly-owned) and Northfield Aviation Group Inc., 100% owned and controlled at September 30, 2025 (December 31, 2024 - 91.0%). These subsidiaries are fully consolidated on the date control was obtained by Northfield. On May 26, 2025, Northfield acquired the remaining 9% minority interest in Northfield Aviation Group Inc. - see Note 8.

During 2020, Northfield incorporated 2756189 Ontario Inc., a wholly-owned subsidiary of Northfield for the purpose of managing corporate office expenditures. On June 2, 2023, Northfield incorporated True North Helicorp Inc., a wholly-owned subsidiary of Northfield Aviation Group Inc., to provide chartered air services from a newly purchased helicopter. On July 4, 2024, Northfield incorporated TNA SOUTH, S.A. DE C.V., ("**TNA South**") a wholly-owned subsidiary of True North Airways Inc., with the intention to provide chartered air services within the country of El Salvador.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of these consolidated financial statements requires management to make certain estimates, judgements and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the reporting period. Actual outcomes could differ from these estimates. These consolidated financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the consolidated financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

(a) Critical accounting estimates

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the consolidated statement of financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- (i) fair value of financial assets and financial liabilities on the consolidated statements of financial position that cannot be derived from active markets, are determined using a variety of techniques. The inputs to these models are derived from observable market data where possible, but where observable market data are not available, judgement is required to establish fair values. For options and warrants which are not traded on a recognized securities exchange, an option pricing model is used where judgements include consideration of model inputs such as volatility, estimated life and discount rates. Privately held investments are initially recorded at the transaction price being the fair value at the time of acquisition. Thereafter, the fair value is adjusted using various valuation techniques such as subsequent equity financing or share performance of comparable public companies; refer to note 22;
- (ii) deferred taxes recognized in respect of tax losses to the extent that it is probable that taxable profit will be available against which losses can be utilized. Estimates are used to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of future taxable profits, together with future tax planning strategies;

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)

(a) Critical accounting estimates (continued)

- (iii) the determination of acquisition date fair values often requires management to make assumptions and estimates about future events. The assumptions and estimates with respect to determining the fair value of royalty interests generally require a high degree of judgement, and include estimates of projected future production, estimated quantities of mineral reserves and resources, expected future production costs, and discount rates at the closing date. Changes in any of the assumptions or estimates used in determining the fair value of acquired assets and liabilities could impact the amounts assigned to assets and liabilities;
- (iv) amortization of property and equipment is dependent upon estimates of useful lives which are determined through exercise of judgement;
- (v) when Northfield enters into leases as lessee and where the interest rate implicit in a lease cannot be readily determined, Northfield determines its incremental borrowing rate in order to measure its lease liability. The incremental borrowing rate is the rate of interest that a lessee would have to pay to borrow over a similar term, and with similar security, the funds necessary to obtain an asset of a similar value to the right-to-use asset in a similar economic environment. In determining its incremental borrowing rate, Northfield considers the term of the lease, the nature of the leased asset, and its level of indebtedness with reference to market risk-free interest rates; and
- (vi) grants of warrants and options are measured at fair value on the grant date. Management uses the Black-Scholes method to estimate the fair value of the warrants determined at the grant date. Significant assumptions affecting the valuation of warrants include the term allowed for warrant exercise, a volatility factor relating to Northfield's historically share price, dividend yield, forfeiture rate and risk-free interest rate.

(b) Critical accounting judgements

The determination of categories of financial assets and financial liabilities has been identified as an accounting policy choice which involves judgements or assessments made by management.

Northfield assesses whether an acquisition is an asset acquisition or a business combination. Northfield accounts for an acquisition as a business combination if the assets acquired and liabilities assumed constitute a business and Northfield obtains control of the business. When the cost of a business combination exceeds the fair value of the identifiable assets acquired or liabilities assumed, such excess is recognized as goodwill. Transaction related costs are expensed as incurred.

If an acquisition does not meet the definition of a business combination, Northfield accounts for the acquisition as an asset acquisition. The January 2, 2025, acquisition of Voyageur Mineral Explorers Corp. was accounted for as an asset acquisition. See Note 7 for details.

7. ACQUISITION OF VOYAGEUR MINERAL EXPLORERS CORP.

On December 24, 2024, Northfield announced that it entered into binding share purchase agreements with five shareholders of Voyageur pursuant to which Northfield agreed to acquire an aggregate of 4,787,301 common shares of Voyageur ("**Voyageur Shares**") in consideration for the issuance to such shareholders of an aggregate of 718,095 Class A restricted voting shares (post share-split) in the capital of Northfield (the "**Northfield Shares**"). Each Voyageur Share was exchanged for 0.149999915 of a Northfield Share (post share-split exchange ratio) and closed on January 2, 2025 resulting in Northfield having acquired ownership and control of an aggregate of an additional 4,787,301 Voyageur Shares. Following the closing date, Northfield owned and controlled an aggregate of 16,865,103 Voyageur Shares (of which an aggregate of 16,189,003 Voyageur Shares will be owned by Northfield directly, an aggregate of 671,100 Voyageur Shares will be owned by Mr. Cudney, and an aggregate of 5,000 Voyageur Shares will be owned by Cudney Stables) representing approximately 50.2% of the issued and outstanding Voyageur Shares.

As the acquisition of Voyageur does not meet the definition of a business in accordance with IFRS 3 – Business Combinations, Northfield has accounted for the transaction as an asset acquisition, measured under IFRS 2, Share-based Payments. The fair value of the consideration will be allocated to the identifiable assets acquired and liabilities assumed based on their relative fair values at the date of acquisition.

The following table summarizes the fair value of the consideration paid and the fair values of the assets acquired, and liabilities assumed on the closing date:

Purchase Price:	
Fair value of the consideration paid ⁽¹⁾	\$ 2,872,380
Fair value of non-controlling interest ⁽²⁾	11,520,618
Fair value of previously held equity interest ⁽³⁾	8,740,773
Total consideration	\$ 23,133,771

(1) The fair value of the shares issued to Voyageur shareholders were based on the quoted market price of a Northfield common share on the day they were issued.

(2) Northfield used the proportionate interest method in measuring non-controlling interest at the acquisition date.

(3) The fair value of the previously held equity interest was revalued at January 2, 2025. On revaluation a \$4,931,040 realized gain was recognized in net investment income in the statements of operations. The fair value of the previously held 11,401,702 Voyageur common shares was based on the quoted market price on the day of the acquisition. The fair value of the previously held warrants was calculated using the Black Scholes option pricing model with the following assumptions:

The fair values of producing and development stage royalties were estimated using discounted cash flow models. Expected future cash flows used to estimate the fair value of these royalties are based on estimates of projected future production, estimated quantities of mineral reserves and resources, expected future production costs, and discount rates at the closing date.

8. ACQUISITION OF NORTHFIELD AVIATION

On May 26, 2025, Northfield completed the acquisition of the remaining 9% minority interest in Northfield Aviation Group Inc. ("**Northfield Aviation**") through its wholly-owned subsidiary, Spruce Goose Aviation Inc. The transaction resulted in Northfield obtaining 100% ownership of Northfield Aviation, which owns and operates the TNA Group of aviation companies.

Northfield acquired 9,357 Class A and 22,303 Class B shares of Northfield Aviation from Iain Hayden, the former minority shareholder, representing the 9% voting interest not previously owned. As consideration, Northfield issued 60,000 Class A restricted voting shares valued at \$313,800 based on the closing price of \$5.23 per share on the transaction date.

This transaction has been accounted for as an equity transaction in accordance with IFRS 10, as it represents an acquisition of non-controlling interest without a change in control. The carrying amount of the non-controlling interest acquired was \$135,280, which included the minority interest's proportionate share of earnings from January 1 to May 26, 2025. The difference between the consideration paid of \$313,800 and the carrying amount of the non-controlling interest acquired of \$135,280, totaling \$178,520, has been recognized directly in retained earnings. No gain or loss was recognized in the consolidated statement of operations as a result of this transaction.

11. LOANS PAYABLE (continued)

⁽²⁾On March 14, 2025 the Northfield, along with certain of its subsidiaries, entered into an aircraft loan agreement with Echo Capital Fund I Inc., a private lender in the aviation space, to finance the purchase of aircraft by Spruce Goose Aviation Inc., a wholly-owned subsidiary. The agreement provides for a loan of up to US\$5.195 million with a five-year term. Interest is based on a variable floating rate equal to the annual interest rate posted by Laurentian Bank of Canada plus 300 basis points, calculated and compounded monthly. The proceeds were used to purchase high performance helicopters, including a 1999 Eurocopter AS350-B3 for US\$1.595 million (CAD \$2.314 million), with the remaining amount available for additional aircraft purchases prior to June 30, 2025. The loan is secured against certain aircraft and contains customary terms and covenants. Fixed monthly repayments in the amount of \$28,022 per month are based on an amortization period of 5 years and consist of principal and interest at a rate of 7.95% per annum over the 5-year term, with the balance due on March 3, 2030.

⁽³⁾The mortgage is payable to RBC for the purchase of a property located in Wellington, Ontario. This fixed rate term loan in the amount of \$591,000 is repayable in blended monthly payments of \$3,525, including interest, based on a 240 month amortization. The loan has a 60 month term and all outstanding principal and interest is payable in full at the end of the term. The loan bears interest at 3.50% per annum. The mortgage was obtained on December 16, 2021 and interest accrued at September 30, 2025 was \$nil (December 31, 2024 - \$nil).

⁽⁴⁾The promissory note is payable to Northfield's CEO, Mr. Robert Cudney, for a loan to purchase an aircraft. Interest is payable monthly at a fixed rate of 7.5% per annum. Principal is repayable at maturity on April 19, 2026, which was extended from its maturity date of April 19, 2025. In November 2024, Northfield repaid an amount of \$114,772 towards the principal. Interest accrued at September 30, 2025 was \$47,374 (December 31, 2024 - \$6,548).

⁽⁵⁾On August 18th 2023, Northfield received the first tranche of proceeds, \$2.97 million, under a secured loan with Canadian Western Bank, a Schedule I Canadian Chartered Bank. The term of the loan is 4 years, bears interest at an annual rate of 7.25% and is secured by an aircraft in Northfield's fleet. Fixed monthly repayments are based on an amortization period of 4 years and will consist of principal and interest in the amount of \$34,879 over the 4-year term. The second tranche of proceeds of \$1.00 million was received on December 12, 2023. Fixed monthly repayments on the second tranche are based on an amortization period of 10 years and will consist of principal and interest in the amount of \$11,743 over the 10-year term.

⁽⁶⁾The loan is payable to CNH Industrial Capital for the financing of two tractors for the Grange. Interest is payable monthly at a fixed rate of 1.99% per annum. The loan is repayable in blended monthly payments of principal and interest of \$2,645 with a maturity date of June 1, 2028. Interest accrued at September 30, 2025 was \$nil (December 31, 2024 - \$nil).

⁽⁷⁾ The loan is payable to Northfield's CEO, Robert Cudney for a loan to fund the purchase of the newly acquired 2014 Pilatus PC-12 NG aircraft. Interest is payable monthly at a fixed rate of 7.5% per annum. Principal is repayable at maturity on July 3, 2026. Interest accrued at September 30, 2025 was \$4,846 (December 31, 2024 - \$nil).

⁽⁸⁾On July 7, 2025, Northfield amended its Aircraft Loan Agreement with Echo Capital Fund I Inc., increasing the facility from US\$5.195 million to US\$5.795 million. On July 8, 2025, Northfield acquired a 2014 Pilatus PC-12 NG aircraft through Spruce Goose Aviation Inc. for US\$4.2 million, funded by drawing the remaining undrawn balance of the facility including the US\$600,000 increase. The amended facility maintains the original terms described in Note 11. The acquired aircraft was pledged as additional security under the amended agreement. Fixed monthly repayments in the amount of \$69,878 per month are based on an amortization period of 5 years and consist of principal and interest of 7.95% per annum over the 5-year term, with the balance due on July 15, 2030.

Equity Incentive Plan

The shareholders of Northfield have approved an omnibus equity incentive plan (the “**Equity Incentive Plan**”). The Equity Incentive Plan is a “rolling evergreen” plan and provides that the number of common shares of Northfield available for issuance from treasury under the Equity Incentive Plan or any other security based compensation arrangement, subject to adjustments, shall not exceed 10% of the issued and outstanding common shares of Northfield at the time of grant. Any increase in the issued and outstanding common shares of Northfield will result in an increase in the available number of common shares issuable under the Equity Incentive Plan. Any issuance of common shares from treasury pursuant to the settlement of stock options or share units granted pursuant to the Equity Incentive Plan shall automatically replenish the number of common shares issuable under the Equity Incentive Plan. When each option or share unit is exercised or settled (as applicable), cancelled or terminated, a common share shall automatically be made available for the grant of a stock option/share unit under the Equity Incentive Plan.

Stock Options

The Equity Incentive Plan provides for the issuance of stock options to acquire common shares to employees, directors, officers, consultants, and management of Northfield. The period within which stock options may be exercised and the number of stock options which may be exercised in any such period are determined by the Board of Directors at the time of grant of such stock options, however, that the maximum term of any stock option awarded under the Equity Incentive Plan is ten (10) years. The exercise price per common shares under a stock option is determined by the Board of Directors, but in any event, shall not be lower than the “market price” of the common shares on the date of grant of the stock option.

On May 31, 2024 Northfield announced that it granted a total of 1,000,000 stock options (post share-split) to purchase Class A restricted voting shares to certain directors, officers and consultants at an exercise price of \$4.30 per Share (post share-split), expiring on May 31, 2029. The Options vest in three tranches with one-third having vested upon the approval of the Equity Incentive Plan at the annual general and special meeting of shareholders held on June 27, 2024, one-third vesting on May 31, 2025 and the final one-third vesting on May 31, 2026.

Option pricing models require the use of highly subjective estimates and assumptions including the expected stock price volatility. Volatility is based on the historical volatility of Northfield. Changes in the underlying assumptions can materially affect the fair value estimates. No options were granted during the nine months ended September 30, 2025.

Deferred Share Units and Restricted Share Units

The Equity Incentive Plan provides for the issuance of share units to employees, directors, officers and consultants of Northfield. Share units are units created by means of an entry on the books of Northfield representing the right to receive one common share (subject to adjustments) issued from treasury per share unit. The number of share units granted and any applicable vesting conditions are determined in the discretion of the Board of Directors (or a committee thereof) on the date of grant. In granting share units, the Board of Directors (or a committee thereof) may include other terms, conditions, and/or vesting criteria which are not inconsistent with the Equity Incentive Plan. Share units are settled by way of issuance of common shares from treasury as soon as practicable following the maturity date in accordance with the Equity Incentive Plan.

The grant date fair value of the share units equals the fair market value of the corresponding shares at the grant date. The fair value of these equity-settled awards is recognized as compensation expense with a corresponding increase in equity. The total amount expensed is recognized over the vesting period, which is the period over which all the specified vesting conditions should be satisfied.

During the nine months ended September 30, 2025 and September 30, 2024, no deferred share units or restricted share units were granted. As at September 30, 2025 no deferred share units or restricted share units are outstanding (December 31, 2024 - none).

22. FINANCIAL INSTRUMENTS

The investment operations of Northfield's business involve the purchase and sale of securities and, accordingly, the majority of Northfield's assets are currently comprised of financial instruments. The use of financial instruments can expose Northfield to several risks, including liquidity, other price and interest risks. A discussion of Northfield's use of financial instruments and their associated risks is provided below. There has been no change to Northfield's risk management policies or processes during the quarter.

(a) Liquidity risk

Liquidity risk is the risk that Northfield will have insufficient cash or other resources to meet its financial obligations as they come due. Northfield's liquidity and operating results may be adversely affected if Northfield's access to the capital markets is hindered, whether as a result of a downturn in stock market conditions generally or related to matters specific to Northfield, or if the value of Northfield's investments declines, resulting in losses upon disposition. Northfield generates cash flow primarily from its financing activities and proceeds from the disposition of its investments, in addition to interest and dividend income earned on its investments. Northfield has sufficient marketable securities which are freely tradable and relatively liquid to fund its obligations as they become due under normal operating conditions.

From time to time Northfield uses financial leverage or margin when purchasing investments. Trading on margin allows Northfield to borrow part of the purchase price of the investments (using marginable investments as collateral), rather than pay for them in full. Buying on margin allows Northfield to increase its portfolio size by increasing the number and amount of investment through leverage. However, if the market moves against Northfield's positions and Northfield's investments decline in value, Northfield may be required to provide additional funds to its brokers, which could be substantial. Given the nature of Northfield's business, Northfield may not have sufficient cash on hand to meet margin calls and may be required to liquidate investments prematurely and/or at a loss, in order to generate funds needed to satisfy Northfield's obligations. Furthermore, if Northfield is unable to provide the necessary funds within the time required, Northfield's marginable investments may still be liquidated at a loss by its brokers to meet the obligations (and Northfield may still be required to make up any additional shortfall in funds thereafter).

Northfield has at times borrowed funds from other sources to meet its obligations, but there can be no assurances that such funds will be available in the future, or available on reasonable terms, and the absence of available funding and/or the sale of Northfield's investments in order to meet margin calls could have a materially adverse impact on Northfield's operating results. Northfield has a revolving facility in the amount of \$1,175,000 of which \$429,000 was drawn at September 30, 2025 (December 31, 2024 - \$158,000).

As at September 30, 2025, based on typical margin requirements Northfield had available margin of approximately \$1,010,733 from its brokers (December 31, 2024 - \$2,439,196), of which Northfield was using \$331,468 (December 31, 2024 - \$1,170,825). Northfield manages this risk by not over extending the use of margin. As at September 30, 2025, a 10% decrease in the closing price of Northfield's investments with all other variables held constant would reduce the available margin to \$909,659 (December 31, 2024 - \$2,152,842).

(b) Other price risk

Market risk is the risk that the fair value of, or future cash flows from Northfield's financial instruments will significantly fluctuate because of changes in market prices. The value of the financial instruments can be affected by changes in interest rates, foreign exchange rates, equity and commodity prices. Northfield is exposed to other price risk, a component of market risk, in trading its investments and unfavourable market conditions could result in dispositions of investments at less than favourable prices.

22. FINANCIAL INSTRUMENTS (continued)

(b) Other price risk (continued)

The following table shows the estimated sensitivity of Northfield's after-tax net comprehensive income for the nine months ended September 30, 2025 resulting from a change in market price of Northfield's investments with all other variables held constant as at September 30, 2025:

Percentage of change in closing prices	Change in comprehensive income (net of tax) from % increase in closing price	Change in comprehensive income (net of tax) from % decrease in closing price
Investments FVTPL		
5%	\$ 3,410,765	\$ (3,410,765)
10%	\$ 6,821,529	\$ (6,821,529)

(c) Interest rate risk

Interest rate risk is the impact that changes in interest rates could have on Northfield's earning and liabilities. As at September 30, 2025, Northfield had access to credit facilities comprised of due to brokers and credit facilities (collectively "interest risk liabilities"), which bore interest at rates fluctuating with the prime rate or overnight lending rate. From time to time Northfield uses these facilities, and at September 30, 2025 the amount outstanding was \$429,000 (December 31, 2024 - \$158,000). The interest bearing liabilities can be repaid by Northfield at any time without notice or penalty, which provides Northfield with some ability to manage and mitigate its interest risk.

Northfield invests in fixed income securities and high interest savings accounts that are subject to interest rate price risk resulting from changes in fair value from market fluctuations in interest rates. To minimize this risk, all fixed income securities and high interest savings accounts held by Northfield as at September 30, 2025 are redeemable upon demand.

(d) Credit risk

Credit risk is the risk of financial loss to Northfield if a counter party to a financial instrument fails to meet its payment obligations. Northfield is exposed to credit risk with respect to its cash and cash equivalents and receivables.

Northfield's credit risk is primarily attributable to cash and cash equivalents and receivables. Management believes that the credit risk concentration with respect to cash and cash equivalents is remote as it maintains accounts with highly-rated financial institutions and brokerage firms. As such, as at September 30, 2025, Northfield had \$1,964,688 in financial assets that may be subject to credit risk defaults (December 31, 2024 - \$918,219).

(e) Currency risk

Currency risk is the risk that the fair value of, or future cash flows from Northfield's financial instruments will fluctuate because of changes in foreign exchange rates. Some of Northfield's investments are denominated in foreign currencies and are therefore exposed to foreign exchange fluctuations. Northfield believes it is not significantly exposed to currency risk as these investments comprise approximately 10% of Northfield's total investments. Consequently, fluctuations of the United States dollar in relation to Canadian dollar impact the fair value of financial assets and operating results. Financial assets subject to currency translation risk primarily include United States dollar denominated cash and marketable securities.

For the nine months ended September 30, 2025 management estimates that if the United States dollar had strengthened or weakened by 10% against the Canadian dollar, assuming all other variables remained constant, net income for the period would have increased or decreased by approximately \$158,000 (December 31, 2024 - \$273,000).

22. FINANCIAL INSTRUMENTS (continued)

(f) Concentration risk

One investments comprises 83% of the other investments balance at September 30, 2025 (December 31, 2024 - two investments comprised 65% and 14%). One investment comprises 93% of the marketable securities balance at September 30, 2025 (December 31, 2024 - one investment comprised 94%). No customers in TNA comprised over 10% of Northfield's consolidated revenues (December 31, 2024 - two customer in TNA comprised 13% and 12%). Three customer in TNA comprised 27%, 24% and 13% of the receivable balance at September 30, 2025 (December 31, 2024 - 17%).

(g) Fair value

Northfield has determined the fair value of its financial instruments as follows:

- (i) The carrying values of receivables and accounts payable and accrued liabilities, loans payable and credit facilities approximate their fair values due to the short-term nature of these instruments. Loans payable also approximate fair value given their recent issuance.
- (ii) Investments are carried at amounts in accordance with Northfield's accounting policies. The fair value of securities that do not have a quoted market price in an active market (private company investments) cannot be reliably measured due to the significant variability in the range of reasonable fair values for these instruments and the inability to assign probabilities to a range of fair value estimates. The market for these financial instruments is a private equity market. The entity intends to dispose of these financial instruments by way of transfer of ownership, if possible.

(h) Fair value hierarchy

Northfield adopted the accounting standards associated with financial instruments resulting in a three-tier categorization as a framework for disclosing fair value based upon inputs used to value Northfield's investments.

The hierarchy is summarized as:

Level 1 – public company investments and cash.

Level 2 – warrants for which are not traded on a recognized securities exchange and where there are sufficient and reliable observable market inputs, the Black-Scholes model for valuation is used.

Level 3 – private company investments.

As at	September 30 2025	December 31, 2024
Level 1	\$ 16,615,988	\$ 24,567,899
Level 2	208,128	240,065
Level 3	66,330,897	32,027,828
	\$ 83,155,013	\$ 56,835,792

During the nine months ended September 30, 2025, \$50,000 of investments were transferred from Level 3 to Level 1 (December 31, 2024 - \$914,060). Transfers in and out of Level 3 are due to changes in the observability of market data.

22. FINANCIAL INSTRUMENTS (continued)

(h) Fair value hierarchy (continued)

During the nine months ended September 30, 2025, the reconciliation of investments measured at fair value using unobservable inputs (Level 3) is presented as follows:

Balance - December 31, 2024	\$ 32,027,828
Purchases	19,051,825
Transfers out of Level 3 to Level 1	(50,000)
Acquisitions (<i>note 7</i>)	50,000
Change in unrealized gains	15,251,244
Balance - September 30, 2025	\$ 66,330,897

The following table presents the fair value, categorized by key valuation techniques and the unobservable inputs used within Level 3 as at:

Valuation Technique	September 30, 2025		December 31, 2024	
	Fair Value	Unobservable inputs	Fair Value	Unobservable inputs
Recent financings	\$ 66,182,147	Transaction price or last capital raise	\$ 31,879,078	Transaction price or last capital raise
Public company comparables	148,750	Enterprise Value	148,750	Enterprise Value
Other Investments ⁽¹⁾	\$ 66,330,897	\$ -	\$ 32,027,828	\$ -

⁽¹⁾For these Level 3 investments, the inputs used can be highly judgemental. A +/- 25% change on the unobservable input of these investments would have resulted in a corresponding +/- \$16.6 million at September 30, 2025 (December 31, 2024: +/- \$8.0 million) change to the total fair value of the investments.

(i) Categories of financial instruments

The carrying amounts of each of Northfield's categories of financial instruments are as follows:

As at	September 30, 2025	December 31, 2024
FVTPL	\$ 48,201,943	\$ 56,835,792
Amortized cost	\$ 1,158,776	\$ 918,219

23. CONTINGENCIES AND COMMITMENTS

In the normal course of operations, certain contingencies may arise relating to legal actions undertaken against Northfield. In the opinion of management, the outcome of such potential legal actions will not have a material adverse effect on Northfield's results of operations, liquidity or its financial position.

Northfield is committed to and contingently liable for annual rental payments for premises and other loans payable as follows:

2025	\$ 2,164,292
2026	3,477,430
2027	6,200,272
2028	1,682,198
2029	1,621,485
2030 & thereafter	8,637,891
	\$ 23,783,568

24. SUBSEQUENT EVENT

On November 19, 2025 Northfield announced a brokered financing (the "Offering") of units (the "Units") at a price of \$5.50 per Unit (the "Issue Price") for aggregate gross proceeds of up to \$10,000,001. Each Unit will consist of one class A restricted voting share of Northfield (a "Share") and one Share purchase warrant (a "Warrant"). Each Warrant will entitle the holder thereof to purchase one additional Share at an exercise price of \$7.50 per Share for a period of three years following the closing date of the Offering. The net proceeds from the Units issued under the Offering will be used to fund operational expenditures and for general corporate purposes. Closing of the Offering remains subject to the approval of the TSXV and is expected to occur on or about December 2, 2025 or such other date or dates as the Northfield may determine.

25. RECLASSIFICATION OF COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to the current period's presentation. Such reclassifications did not affect net income (loss), comprehensive income (loss) or shareholders' equity.
